Over 180 Years of Heritage and Trust

Yale is the global master brand for the residential market with consumers as the primary target group. Yale stands for Trusted Innovation and has 180 years of experience in making homes safer and smarter.

Trusted every day

Since 1840

yalehome.co.in

180 years of new ideas

We're 180 years old in 2020. Would Linus Yale Senior or Junior recognise the locks of today? The app notifications? The fingerprint recognition? Maybe not. But what they'd certainly spot is the innovation – after all, we've got a long history of leading the way.

In 1840, Linus Yale Senior opens a lock shop and starts to manufacture the first pin-tumbler locks. In 1862, Linus Yale Junior starts mass-producing this design, introducing the cylinder lock to thousands. It's still the most widely used lock in the world.

So it's in our DNA to find smarter ways of doing things, not only in our products, but also in the ways we work together as a company.

Linus Yale Junior

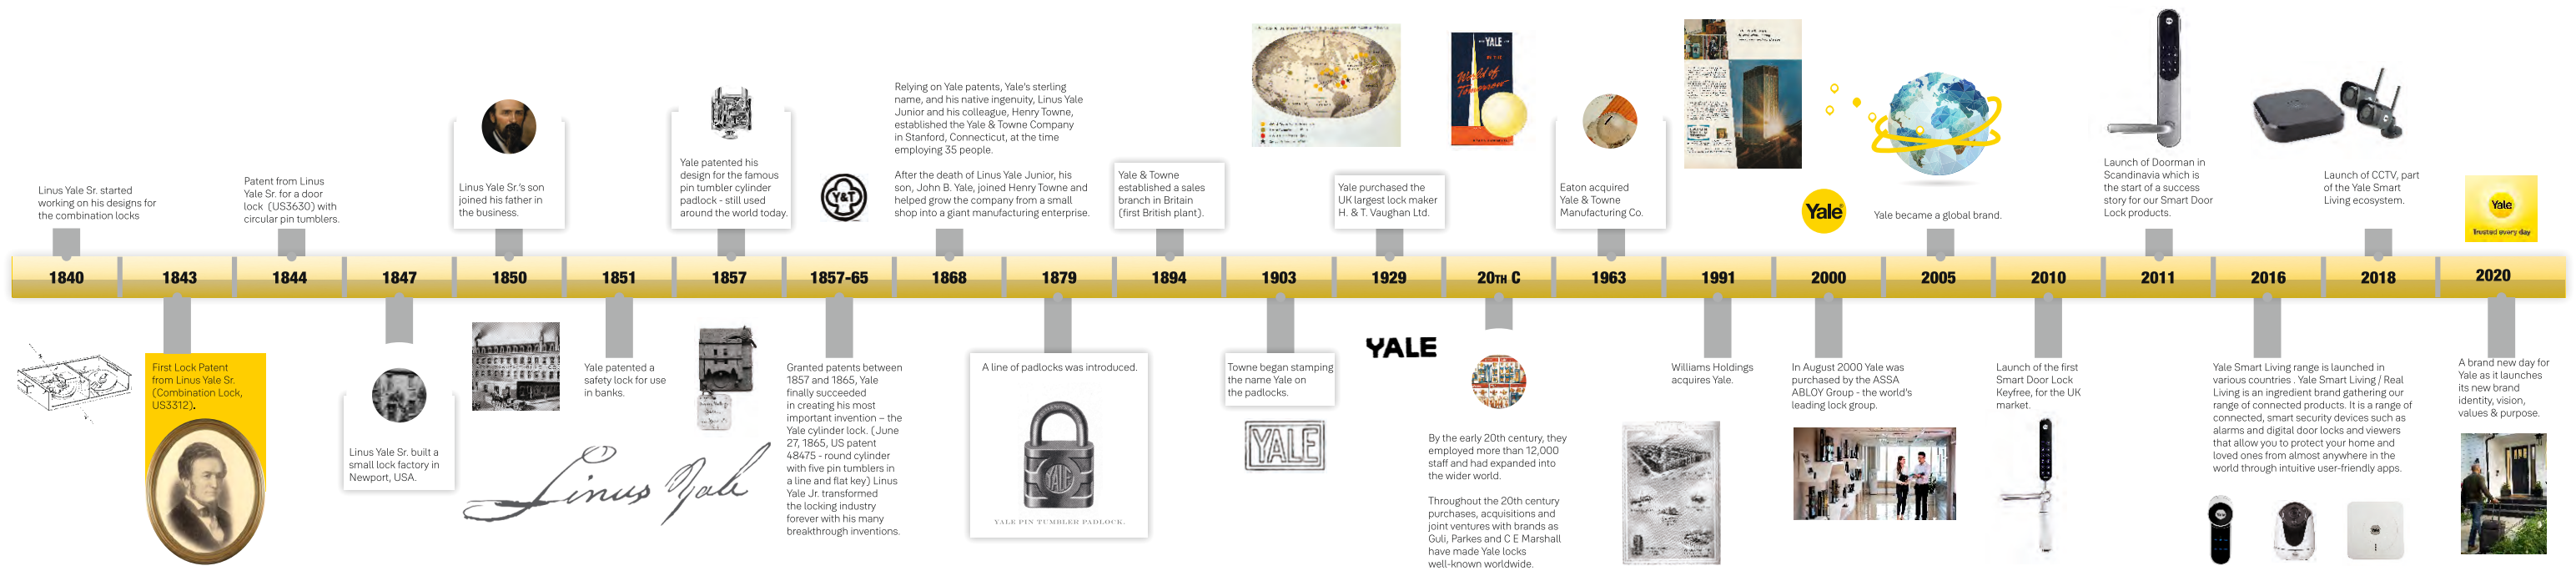

Yale is trusted by millions of people every day to keep what's important to them safe. Their homes, families and belongings.

Our innovations have protected homes and given peace of mind for 180 years. We have expanded from a mechanical lock innovator to leading the evolution of connected smart locks and homes.

Because when we do things, we do them properly. We were there for your grandparents (and probably theirs) and we will be there for you. And for your children.

Today, and every day to come

Knob Lockset

5122 Series

Features

- Suitable for 35mm – 45mm thick door.
- Backset: fixed 60mm or 70mm.

Material Specifications:

- Material for strike plate and face plate: steel.
